Findlay, OH

Announcing the new Dean for the College of Sciences

We are pleased to join with President Debow Freed at The University of Findlay in announcing the appointment of Terry D. Schwaner, Ph.D. as Dean of the College of Sciences. He holds a Ph.D. in Vertebrate Biology from the University of Kansas, an M.S. in Zoology and Botany from Auburn University and a B.S. Degree in Zoology from Southeastern Louisiana University.

Dr. Schwaner is coming from North Georgia College and State University where he has held the Harry B. Forester Endowed Scholar Chair and served as Professor and Head of the Department of Biology over the last five years. In addition to his academic experience, Dr. Schwaner has been a curator and scientific officer for the South Australian Museum in Adelaide, South Australia and the Queen Victoria Museum in Launceston, Tasmania.

The University of Findlay has entered a new era under the progressive leadership of President Freed and is currently the largest private higher education institution in northwest Ohio, with a budget approaching \$70 million. The College of Sciences recently moved into new quarters that include updated classrooms and laboratories.

This appointment is the result of a national search in which Jon McRae & Associates served as consultants to The University of Findlay.
